## Portable Tool Transformer - CM5000/210

### Quick Overview

- Thermal overload protection
- Glass reinforced polyester (GRP) case providing ingress protection to IP44
- 2 meter input mains lead

| • <b>Product Description</b> |            |
|------------------------------|------------|
| Product code                 | CM5000/210 |
| Input Voltage                | 230V       |
| Output Voltage               | 110V CTE   |
| Intermittent Tool Rating     | 5.0kVA     |
| Continuous Rating            | 2.5kVA     |

Technical drawings of the Portable Tools Transformer showing front, side, and rear views with dimensions and labels.

**Front View:** Dimensions 315 (width) and 280 (height). Labels: 32A SOCKET, 16A SOCKET.

**Side View:** Dimensions 355 (width) and 280 (height). Label: THERMAL CUT OUT.

**Rear View:** Dimensions 265 (width) and 265 (height). Labels: 2m MAINS LEAD, 16A SOCKET.

**Specifications:**

- PORTABLE TOOLS TRANSFORMER
- TYPE: ISOLATION TRANSFORMER
- INPUT: 230V
- OUTPUT: 55-0-55V
- RATING: 2.5kVA INTERMITTENT, 2.5kVA CONTINUOUS
- THERMAL CUT-OUT: 15A
- OUTPUT SOCKET: 2x16A 1x32A BSEN60309
- ENCLOSURE: GRP
- RATED IP44
- RATED IP55
